

Christopher Coomber

Lead Technical Specialist
Refinitiv

INDUSTRY: **FINTECH**

What is the best part of your job?

The best part of my job is the fact that I can be creative, working with nice people and be flexible at the same time.

Biggest learning moment of your career?

My biggest learning came when I decided to let go of my fears. I remembered one of my previous managers asked me to take on a project, working with technology I knew nothing about. At first, I was worried, but what I realise after taking on the role was that you can only grow if you are always willing to step in to the unknown and challenge yourself.

What does Black history month mean to you?

A celebration/remembrance of our ancestors, celebrating the achievement of the Black community and most of all giving thanks to being alive and thriving as a black man. I think every month should be a celebration of black history.

What is your greatest achievement?

Being a father and having the opportunity raise 3 boys.

What is your top tip to success?

1. Always challenge yourself and don't let fear hold you back
2. Work hard - play hard, life is too short, find the right balance that works for you!
3. Always be nice to people and willing to help others, we needed someone to give us a chance!

Why is being a positive role model important to you?

It's important to guide and empower the next generation to achieve far greater success than my generation. If my story can inspire one soul to make a positive change and achieve their goals that would make me very happy.

What advice would you give to your 16year-old Self?

Time fly's! Make good use of all the great opportunities that are presented to you

What are you listening to?

Culture

Favourite food to boost your mood?

Jollof Rice and Chicken with Salad
