

Stefan Murray

Project Director
Mace Group

INDUSTRY: **ENGINEERING**

What is the best part of your job?

Working in Engineering I get to make the world a better place by developing technologies and systems that the improves the lives of the general public.

Biggest learning moment of your career?

I delivered a technical presentation to a panel of national experts in my first years in the industry. I went overboard on detail and lost my way halfway through it, it was awful! But I learned not to put so much pressure on myself and to really focus on keeping things simple.

What does Black history month mean to you?

Black History Month to me, is a time to reflect, appreciate and celebrate directly the unsung heroes that contributed so much, to a world that rarely truly acknowledges the impact of prominent Black figures throughout history, and rarely shows up in the 'History' School curriculum.

Why is being a positive role model important to you?

I didn't have any positive role models growing up and I desperately needed leadership and guidance. By the grace of God, I was able to make something of myself, but I recognise there are many others who were not so fortunate. I am a positive role model to help young people fulfil their potential.

What is your top tip to success?

Trust in God and have a GROWTH Mindset. Always keep learning and developing, don't be afraid of failure, that's how we learn!

What is your greatest achievement?

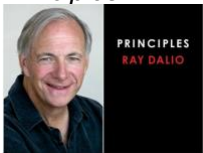

Getting married to my Wife

What advice would you give to your 16year-old Self?

See Top Tip!

What are you listening to?

Ray Dalio - Principles

Favourite food to boost your mood?

Peach flavoured Water

Biggest change since lockdown?

Working remotely

Ideal Mentor?

Jim Simons

Role Model growing up?

My Grandmother
