

# Siobhan Elliott

Paramedic  
London Ambulance Service NHS  
INDUSTRY: **HEALTHCARE**

## What is the best part of your job?

I like that every day can be so different. When I start a shift, I have no idea what the day will entail.

## Biggest learning moment of your career?

I'd say that I'm definitely still learning. I am only a few years into my career and every day I feel like I have learnt something new.

## What does Black history month mean to you?

It's a time to reflect back on all the changes that have been made and give thanks to those that led the way. It makes me grateful for the opportunities I have today, but there is definitely still plenty of room for improvement.

## Why is being a positive role model important to you?

I like to show people that we can do anything we put our minds too. It often takes hard work and dedication, but it definitely pays off.

## What is your top tip to success?

Concentrate, believe in yourself and never give up, it's all worth it in the end.

## What is your greatest achievement?

I'd have to say my daughter, she will be 5 months old at the end of September and brings me joy every single day. Second to that was qualifying as a Paramedic. After 4 hard years of studying, graduating was the best feeling ever.

## What advice would you give to your 16year-old Self?

Most importantly be happy! Don't stress if you don't know where you want to be career wise, you have plenty of time. Oh, and also, if you have a part time job then SAVE, it really does pay off in the future.
